

# ORTA Recommended Transition Plan Process

This recommended transition plan process is strictly informational. This flowchart is an amalgamation of resources from [the NAO 216-105B](#) and best practices. The goal is to provide visual guidance to the transition plan process in order to create expectations and demystify the process. The Transition Plan is intended to provide the vision for the proposed capability and guide transition efforts. The ultimate decision to transition this project to operations resides with the appropriate decision makers at the receiving Line Office. *Approving transition plans provide only situational awareness of the work and does not represent a binding agreement.*

\* AA or AA delegate approval
